# Little Tips... From Real Moms

## Strollers

We depend on a variety of strollers in our home. Sure, a travel system was great for our newborn, but an umbrella stroller was really convenient for those short trips, when our baby reached 6 months old. And these days, a jogger has been a big part of our life, too. It's great when I'm going for a run in the park with my baby.

*Diane, Hampstead, NC*

## Carriers

I don't know what I'd do without my carrier! It allows me to bring my baby into stores and museums – places where my stroller is just too much. And I love being hands-free while still having my baby with me.

*Marjorie, New York City, NY*

## Diaper Bags

I looked for a diaper bag that works as a purse too, since it can be cumbersome carrying both. And I found one with extra pockets for my keys, wallet, etc. It's great for those long days away from home, too.

*Sue, Cleveland, OH*

## Sterilizers

Thank goodness for my sister-in-law! She made me realize how important it was to sterilize my breastpump, bottles and pacifiers before I went to the hospital to deliver my baby. On homecoming day, I sure needed them in a hurry!

*Meredith, Tucson, AZ*

## Breastpumps

My husband was worried about feeling left out at baby's mealtimes – so I'm glad I registered for a really good, quality, electric breastpump. It makes pumping and feeding easier for all of us. It's a family bonding time, not just for mommy and baby.

*Emily, Greenbay, WI*

## Play Yards

I got a play yard for my parents' home, too. They love having it when we visit with the baby, which is often. And it's one less item for us to carry back and forth. Thank goodness I registered for plenty of sheets and an extra supply of quilted pads.

*Sue, Fanwood, NJ*
